Chair: Jean-François Trempe, PhD

Canada Research Chair in Structural Pharmacology

Director, Proteomics platform of the RI-MUHC

Associate Professor, Dept of Pharmacology & Therapeutics

McGill University

Guest speaker: Edward A. Fon, MD, FRCP(C)

Scientific Director, Montreal Neurological Institute

Director, FRQS Quebec Parkinson Network

Canada Research Chair in Parkinson's Disease

Professor of Neurology and Neurosurgery

McGill University

Program:

14:00 – 14:25	Introduction – Dr Jean-François Trempe Title: History of structural biology & biophysics and ties to medicine
14:25 – 15:00	Guest speaker, Dr Edward Fon Title: TBA
15:00 – 15:35	Discussion 1 Topic: Bridging the gap between clinicians and basic scientists
15:35 – 15:55	Discussion 2 Topic: Ideas for future bench-to-bedside seminars
15:55 – 16:00	Conclusion
